

## Pharmacovigilance Associate

**Location:** Hurley, UK

**Posted Date:** May 2022

• **Dermatology**  
beyond the skin

Are you interested in working at LEO Pharma in the UK?

**At LEO Pharma, we are pioneering together.**

**We help people with skin diseases live fulfilling lives by advancing dermatology beyond the skin.**

We drive dermatology with our knowledge, collaboration and curiosity. We are at the forefront of science in developing new medicines for dermatology. Each one of us at LEO Pharma can make a real impact in our everyday work. We encourage each other to explore new ways of doing things. We are empowered to be bold and take initiative to bring our ideas to life – and we have the space to develop, grow and gain a real breadth of experience. We are a company built on mutual respect and a shared sense of purpose, driven by our caring culture and a deep-rooted commitment to helping others. As a purpose-driven company, we put patients first and invest in tomorrow's solutions to change lives for generations to come. This is what makes us different!

For us, pioneering together is about constantly improving and extending what's possible for each other, our company, and our patients.

**Job purpose:** To support the UK and Ireland Pharmacovigilance department in key pharmacovigilance activities, including the collection, processing, evaluation and reporting of safety data, in accordance with all applicable regulations and Company procedures.

### **Job Responsibilities:**

- Compliance with LEO internal processes and relevant external codes and guidelines, specifically ABPI / IPHA codes
- Processing cases and all relating activities including case follow up
- Working with the Global Safety team on processing activities
- Providing pharmacovigilance training to other LEO employees and third party providers
- Reconciliation of adverse event reports
- Managing literature review process
- Monthly legislation scanning and presenting updates on findings
- Other general PV related activities

### **Professional Competencies:**

- Life science degree or qualified Pharmacist or equivalent
- Some experience in pharmacovigilance desirable but not mandatory
- Good oral and written communication
